"In Memoriam"

MRS. NATALEE A. DEAN, LIBRARIAN AT SOUTH SIDE HIGH SCHOOL
From 1969 to 1983

You stood tall, radiant, in cheerful disguise.
Your shortness of stature was no match beside.
When first we glimpsed you neath the shelves stacked high
searching facts, finding clues,
We knew then you had a touch to inspire.
How often we found you, reading verse, quoting authors,
the best and the worst.
Yes, you were official, librarian, and all of that.
But the teasing twinkle in your eye, and the sprightly spirit within your soul
Played hellish, havoc in stern defiance of what must have been a grief,
terrible and bold.
The less courageous could not have won,
But you, triumphantly, would not succumb.
The secret, you kept for our sake, we know.
'Twas that wonderful kindness you always did show,
You would not have wanted to spoil the job of each day that you greeted us
as courteous St. Loy.
No ephemeral cheer was yours to give; no transitory laughter did bid your will.
A consummate joy was yours to share.
Your eternal rapture was surely rare.
"Death, Be not proud." You're nothing more than a hidden shroud.

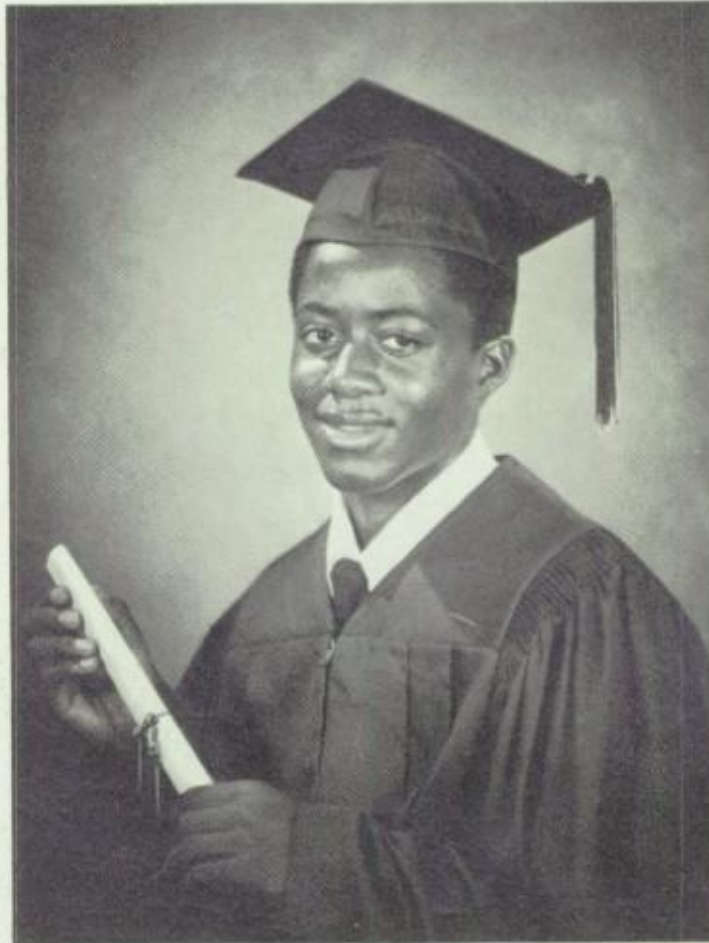

The warmth and sunshine that she gave
Cannot be diminished by the simple grave.

"In Memoriam"

DEDRICK DAVIS, SENIOR AT SOUTH SIDE HIGH SCHOOL

From August 23, 1983 to September 10, 1983

You were one of us, a part of the whole. Sitting in class, well on your way of reaching that goal, coveted and cherished since days of old. Soon you would have shared in that realization that studious effort and serious concentration are well worth the time spent in anxious anticipation. The graduating line, long may it be, in all its splendor, will not be complete. The space you left behind will be yours still, for in our hearts, the void cannot be filled. Although you won't be with us, you will always belong, and your cares we will share in the rhythms of our parting song. In joy or in sadness, we will think of you and pray that in all of our confusion, we will understand God's way. We are happy that you joined us, but for a brief while, and that your family may be pleased, there will be not tears — just a smile.

As one among us dying young, somehow
You must know of the love you won.

Staff Member

From The Principal

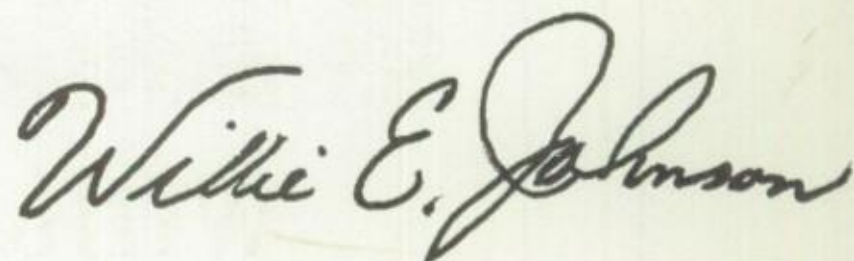

A MESSAGE TO THE GRADUATING CLASS OF 1984

That time has come again that brings me both great sadness and happiness at once. Sadness, that in your venture upon a new course, you will be deeply missed. Happiness, that in your attainment of the goal you vigorously sought, you will be cheered, and happiness too because you have successfully earned that which will launch you on the first segment of a new journey.

As principal of an outstanding graduating class, I feel a sense of indebtedness to you for the good judgment that you have demonstrated by having stayed in school, and I consider it a privilege to have this opportunity to put in writing one last message to you as a group. It is a message in which I will repeat anew and as fervently as the words and thoughts will come to me that, I may impress upon you the relevancy of that which your parents, teachers, and I have tried to make you aware of from the very beginning. That is, to quote Langston Hughes, "Life ain't no crystal stair." It is complex, challenging and demanding. To reach the top, one often has to trek through rough, rugged, and dismal terrain. Lest you conclude this message to be one of foreboding, I hastily assure you that there is nothing to fear in achieving success except the lack of one's own drive, determination, and motivation. You should have no problem with this, for the importance of these has been emphasized to you. Knowledge has been imparted to you that was designed to help you develop skills, and you have been encouraged to gain those insights that will enable you to forge your way. The road that will allow you to overcome and succeed is paved with opportunity. The compass that will steer you in the right direction is preparation. Being prepared is neither extraneous nor negotiable, for the world that you are about to embark upon is born anew each day, and each day it brings with it stringent new demands. Certainly, you can see that the world is very different from what it was just four years ago when you first began your high school career. Four years hence the same statement can be made of the coming four years because change is quick and instantaneous. Technology progresses so rapidly, it is no small wonder that we have suddenly awakened to find ourselves struggling to compute the phenomenal advances that thrust us into the age of computerization in the first place. The impact and force are overwhelming. But to reiterate, you have nothing to fear if you will continue to develop independence of thought, sound reasoning, and critical awareness and put to use the knowledge and concepts that you have been taught.

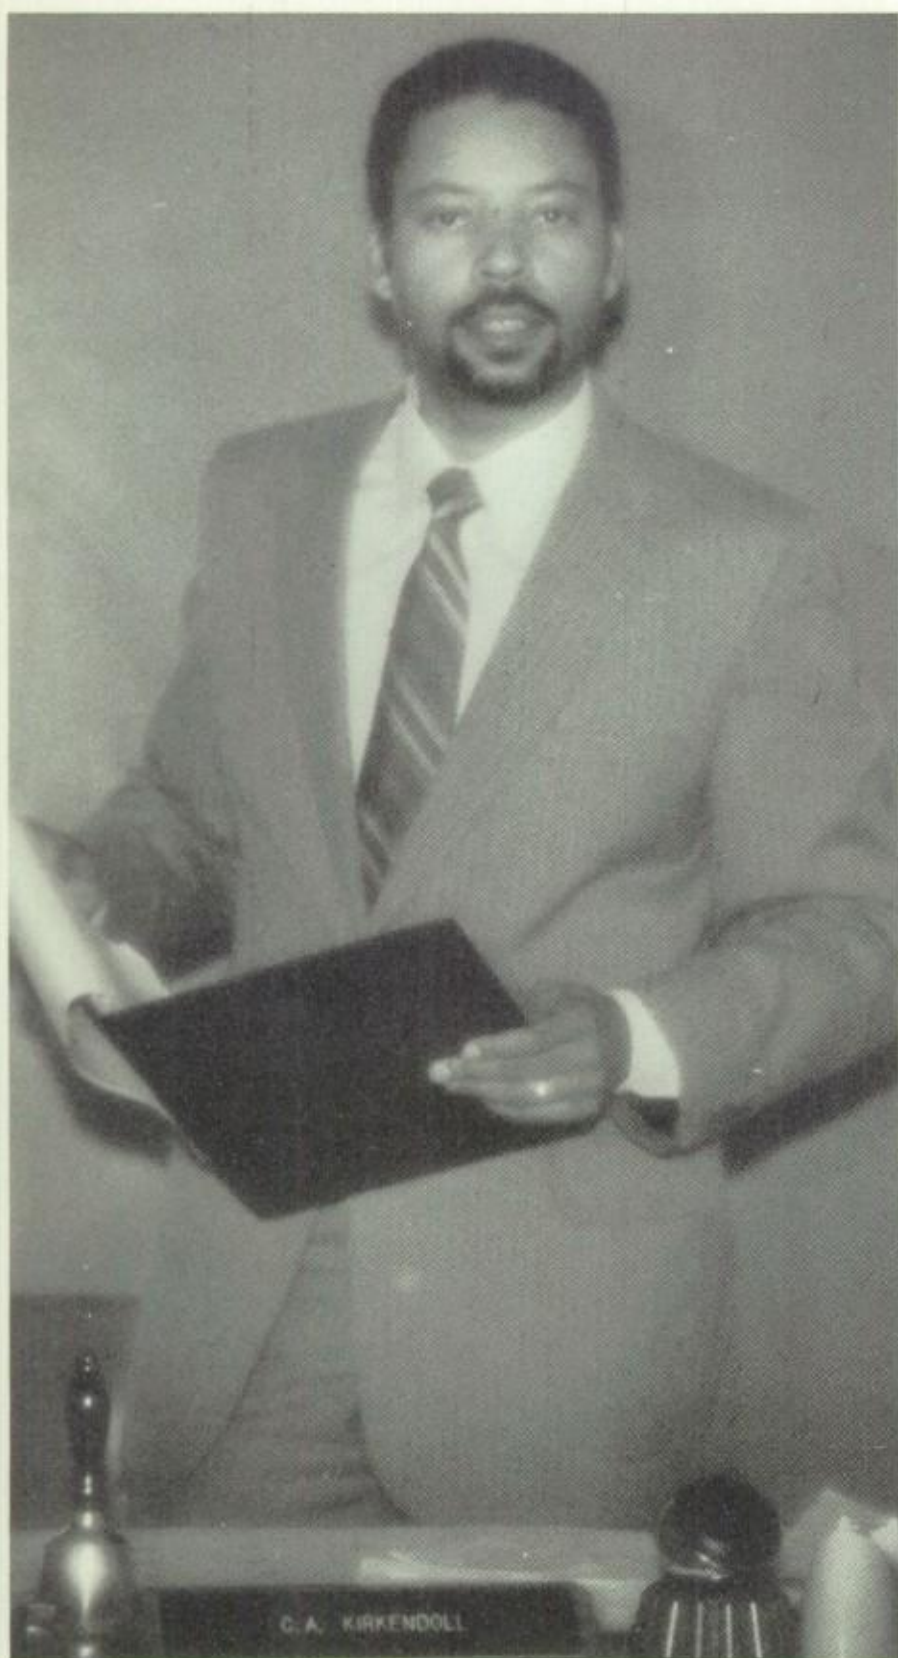

Yes, you have navigated the first degree, but you must be even more diligent now in setting your sights and anchoring well in order to keep your ship afloat the rolling sea.

Seniors, we have loved you. We always will. We hope that your needs here have been fulfilled. Continue the process of learning that you may begin earning your just share of the gifts that life has to offer.

A handwritten signature in dark ink, reading "Willie E. Johnson". The signature is written in a cursive, flowing style with a large, prominent "W" and "J".

TO

Tina Reneé Bell

There is a kind of greatness which does not depend upon fortune; it is a certain manner that distinguishes us, and which seems to destine us for great things; it is the value we insensibly set upon ourselves; it is by this quality, that we gain the deference of other men, and it is this which commonly raises us more above them, than birth, rank, or even merit itself.
